I just tested it today before listing this and to reformat all the of the included ZIP disks. The only problem is that its missing one knob in the tempo control. But that doesnt effect the usage of it. NOTE I found the knob and put it back on but I didnt take new pictures It still works perfectly fine. And the knob is easily replaceable.

Other than that, it works great and is very easy to use.The reason Im selling is because Ive put music on the back burner to focus on my painting, and I dont want this going to waste when one of you out there could use it.
